

## Minerva Engineering Wins Community Leadership Contract Hanover, MD – August 21, 2014

Minerva Engineering announced today that it was the recipient of a prime contract award from the Department of Defense for Community Leadership Support.

This five year contract will require Minerva to provide support to the Community Leadership Office through relationships with DoD, Intelligence and Civil community partners, stakeholders and users. This office includes internally and externally focused organizations to develop, coordinate and ensure the implementation of policies and doctrine that affect the Information Assurance (IA) community and the operation of fielded Communication Security (COMSEC) equipment and IA products. Minerva will be providing IA and systems security engineering (ISSE) expertise to assist the Community Leadership Office in accomplishing the development and implementation of all IA policies and doctrine supporting IA mission goals and objectives. This will include providing strategic advice and direction to key federal government-level working groups and sub-groups.

Work will be performed at Minerva Engineering's offices in the National Capitol Region in support of the customer mission. There are currently numerous open positions for a broad range of skill sets including:

- Sr. Information Assurance Analysts
- Information Assurance Analysts
- Systems Engineers
- Technical Writers
- Policy & Doctrine Subject Matter Experts

Minerva Engineering is a verified Service-Disabled Veteran-Owned Small Business (SDVOSB) providing information security products and services that support defense in depth strategies featuring technologies and processes to harden, defend and secure complex systems for the Intelligence Community, Department of Defense and other federal agencies. Minerva specializes in defensive cyber operations and information security including information assurance, risk assessment and mitigation, vulnerability assessment and penetration testing, secure network engineering, operations and maintenance and defensive network operations. With a demonstrated history of performance, cost and schedule success, Minerva's experienced, innovative & professionally dedicated multi-disciplinary engineering team of "Integrationeers" mitigates program risk and changes problem areas into success areas. Minerva is headquartered in Hanover, MD and is hiring for a large variety of open positions. For more information, visit [www.minervaengineering.com](http://www.minervaengineering.com).
